

Post Season Survey

A post season survey is a tool to gain feedback from participants, providing an insight to what they value in their touch football experience as it is more than just the game that brings members to your fields and supporting your affiliate. We recommend for the survey to be sent out the week after the conclusion of your competition whilst the season experience is fresh in your participants minds.

The questions below are a clear and concise way to gain valuable feedback and can sent out to members in various ways – MySideline Communicator tool, [Jotform](#), Google forms or [Survey Monkey](#).

Scale options – these can be used to assist with your scale-based questions

- Poor, Fair, Good, Very Good
- Unsatisfied, Neutral, Satisfied, Very Satisfied
